

# INTRODUCING B&K 2245 SOUND LEVEL METER DESIGNED FOR YOUR JOB

A complete solution for community noise enforcement  
that gives you absolute confidence and control.

When investigating noise complaints, you need a sound level meter that will get the job done every time and without hassle – especially if you don't use it often. With the new B&K 2245 class 1 sound level meter, you have everything you need in a reliable, easy-to-use package from the most trusted global brand for noise measurement solutions.

B&K 2245 Sound Level Meter is a complete package solution. While it can be used as a stand-alone noise measurement device, the instrument also works seamlessly with specially created mobile apps, as well as your PC, providing an entirely new level of efficiency and control. Accurate noise measurement, analysis and documentation have never been so simple.

## Available in three versions for noise enforcement and compliance

<b>Exhaust Noise Partner</b>	<p>A base version for those who only need maximum A-weighted noise levels</p> <ul style="list-style-type: none"> <li>• A-weighted broadband RMS measurements <ul style="list-style-type: none"> <li>– Fast and slow, max. and min. values</li> </ul> </li> <li>• Mobile app (+ photo, video, voice and text annotations)</li> </ul>
<b>Noise Partner</b>	<p>Simple to operate and flexible enough to adjust to your needs</p> <ul style="list-style-type: none"> <li>• Two simultaneous broadband frequency weightings (A, B, C or Z) <ul style="list-style-type: none"> <li>– <math>L_{eq}</math>, fast and slow, max. and min. values, peak A-weighted impulse</li> </ul> </li> <li>• Mobile app (+ pictures, video, sound and text)</li> <li>• A broadband integrating sound level meter with multiple frequency and time weightings</li> </ul>
<b>Enviro Noise Partner</b>	<p>A full-featured environmental measurement tool. Log and analyze noise profiles, with frequency analysis, statistics, and audio recording. An enhanced mobile application lets you isolate sounds with markers and includes advanced profile views</p> <ul style="list-style-type: none"> <li>• Two simultaneous broadband frequency weightings (A, B, C or Z) <ul style="list-style-type: none"> <li>– <math>L_{eq}</math>, fast and slow, max. and min. values, peak A-weighted impulse</li> </ul> </li> <li>• Broadband statistics based on <math>L_{A5}</math>, <math>L_{AF}</math> or <math>L_{Aeq}</math></li> <li>• Logging capable (1, 5, 10, 30, 60 second intervals) <ul style="list-style-type: none"> <li>– All broadband and spectrum parameters</li> </ul> </li> <li>• Frequency analysis <math>L_{eq}</math>, fast and slow, max. and min. values (octave or 1/3-octave)</li> <li>• Audio recording (MP3)</li> <li>• Mobile app markers (+ photo, video, voice and text annotations)</li> </ul>

Add our Calibration Plus program to extend your warranty/discount and your annual calibration. Our Calibration Plus program also gives you a discount on all Brüel & Kjær accessories.

### Simpler

Easy-to-read color display, easy-to-reach buttons, and a bright (but dimmable) light ring shows you measurement status – even from a distance. Parameters can be selected and locked to what you need to measure, making B&K 2245 easy and comfortable to use.

### Tougher

Comfortable, rubber sides give you a safe and secure grip. The robust design will survive rough environments – B&K 2245 is dust and water resistant to IP55.

### Easier

All the important settings are shown on the display. Just push the start button and your B&K 2245 will provide you with an accurate measurement. Large single measurement range from a typical noise floor of 15.8 dB(A) to over 140 dB, so no range setting is needed.

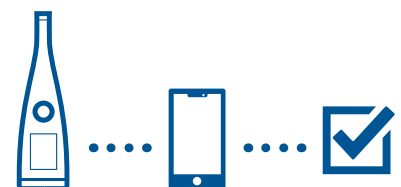

### Smarter

Every B&K 2245 comes with GPS and secure WiFi connectivity so that you know where the measurement was. A mobile app lets you work smarter with checklists, markers and easy embedding of photo, voice and text notes. You can even print out your results in the field with any AirPrint-compatible portable printer.

### Job Done

B&K 2245 Sound Level Meter can be tailored for your job-to-do, and works seamlessly with intuitive, task-specific apps for your mobile phone and PC.
