

## Extended Warranty

*With Brüel & Kjær's Extended Warranty, the total cost of ownership (TCO) is much easier to predict*

### Features

- Full extension of the Standard Product Warranty – up to 10 years after initial shipment date
- All repairs related to product quality are covered
- Repairs needed to finalize a calibration are covered
- Your product will be returned with a repair report and a Certificate of Conformance after repair – certifying that the product works according to factory specifications
- When you send your product for repair, we can also quote for calibration

### Why Choose the Extended Warranty?

- Predict your total cost of ownership
- No unexpected costs in case of failure
- No delays related to approval of quotes and issuing purchase orders

### Information

- Products are covered by the Extended Warranty – no questions asked – when:
  - The product is covered by the Standard Product Warranty or a previous Extended Warranty
  - OR
  - A calibration certificate providing proof that the product works according to factory specifications has been issued by Brüel & Kjær within the latest 12 months
- In all other situations, the product needs to be sent to Brüel & Kjær for inspection and test before Extended Warranty coverage can commence
  - The customer will be liable to pay a fee for the inspection and possible repair
  - A Certificate of Conformance will be issued when the item passes inspection and test
- The customer covers shipment costs to Brüel & Kjær. Return shipping cost (standard, ground) is covered by the Extended Warranty agreement

## Pricing and Availability

---

- Extended Warranty will be quoted per year according to the latest price list
- Extended Warranty is available for all products that can be calibrated

## To Order

---
